

# CONCRETE BUCKET - MATERIAL BUCKET - SAND AND MUD BUCKET

Used for transportation of heavy materials,  
• such as sand, gravel , metal and slag

With reasonable mechanical design for lifting lugs  
• Strong frame  
• Low loading height

| MODEL   | CAPACITY (m <sup>3</sup> ) | SWL (Tons) |
|---------|----------------------------|------------|
| SMB750  | 0.75                       | 1.5        |
| SMB1000 | 1                          | 2          |
| SMB1200 | 1.2                        | 2.4        |
| SMB1500 | 1.5                        | 3          |
| SMB2000 | 2                          | 4          |
| SMB2500 | 2.5                        | 5          |
| SMB3000 | 3                          | 6          |
