

CABLE SOCKS - OPEN END, RB TYPE; R TYPE; RA TYPE

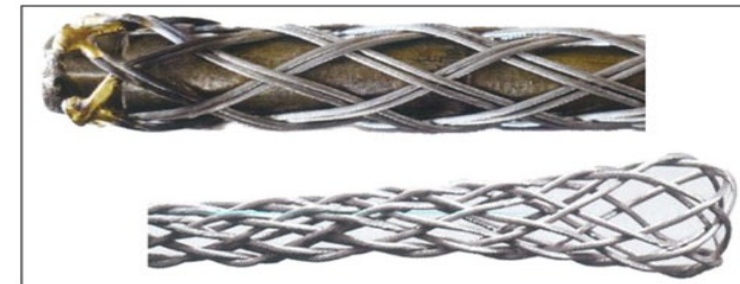

Also commonly known as
Towing Sock, Cable Grip, Cable Stocking, Chinese Finger.

Made from woven mesh wire, and taking shape of an open-ended sleeve/ stocking, the cable sock is usually used for replacement of wire rope or cable.

With one end connected to new wire rope, and the other end connected the old wire-rope, the old wire rope is then replaced through the rotation of the crane or hoist.

Other usages include protection of wire ropes, cables, hose, pipe and etc...

This product is available to fit wire-rope diameter from 8 to 50mm.
