

# LEVER LOAD BINDER

Acts as a Tensioner, fixing & adjusting chains to desired tightness/ tension, ensuring load remains stable and secure

- Lever mechanism allows less effort / faster tension application (as compared to the ratchet type) to achieve required fixed strength
- Maintain stability, preventing loads from loosening and moving during transportation

Lever Load Binder		LBS			LBS/pc
MODEL	SIZE	WWL	Proof Load	Breaking Load	Weight
LLB-1/4-5/16	1/4"-5/16"	2200	4400	7800	3.52
LLB-5/16-3/8	5/16"-3/8"	5400	10800	19000	8.37
LLB-3/8-1/2	3/8"-1/2"	9200	18400	33000	12.11
